wake up to new skin!

apply : sleep : awaken : nūvo skin

nuvo skin. microcrystallized elastic fibre eye strips & serum. wake up looking younger.

Smooth, firm and fade existing fine lines and wrinkles and prevent new ones from forming while you sleep! Reduce dark circles, pores and plump skin overnight.

WHY USE AT NIGHT?

The regeneration of our cells happens at night during the sleep cycle. The Microcrystallized Elastic Fibre Eye Strips' elastic tension can effectively inhibit the squeezing movement of the skin and muscles around the eye area during the time of treatment. Smoothing, firming and fading the existing wrinkles while preventing the formation of new ones.

INVISIBLE EYE STRIP: Elastic fibre and microcrystalline gel ergonomically designed to cover the areas under the eyes and sides. The strip thermally expands and effectively inhibits the squeezing movement of the skin and muscles around the eye area during the time of treatment. With stretching force to adapt to skin and release the ingredients' nutrition deeply into the skin.

NUVO SKIN SERUM: A formulation of Wamino-Bon Bon, Sake and Hyaluronic Acid to help you hydrate, smooth and reduce the appearance of fine lines around the eyes, face and neck. Wamino-Bon Bon helps with improving skin moisture level, texture density and assists with activating cellular activity.

Apply along with the micro crystallized eye strip, sleep, and awaken to NUVO SKIN!

purity. glowy skin

HADAKA comes from the Japanese language, meaning “naked, nude or bare”, which is a representation of the philosophy of the brand.

We believe in celebrating simplicity and nature. Our HADAKA line is simple yet efficient, pared down to the essentials in the beauty regimen. The ingredients are chosen for their qualities, their efficiency and especially their truthfulness. The list of ingredients in our products are short, just the essentials that our bodies need. No fillers or harmful ingredients.

Starting with all-natural, cruelty free, wild harvested ingredients, HADAKA began in an effort to preserve and be conscious of what we put on and into our skin, and we take pride in delivering high quality, noticeable results.

Give your skin the care it deserves.

light therapy

3 colour led mask LED Light Therapy

LED Lights help to optimize your favorite serums, moisturizers, and toners. By stimulating blood flow in the treatment area, the mask helps to rejuvenate dull/tired skin exposed to environmental factors. Not limited to just one setting, the Light Shield allows the wearer to enjoy RED, BLUE, and AMBER LED therapies.

RED Light Therapy: (Wavelength between 620nm to 750nm) Used for its anti-aging benefits because of its ability to stimulate collagen and elastin production. Also believed to reduce cytokines, which cause inflammation.

BLUE Light Therapy: (Wavelength between 405nm to 420nm) Used for its anti-bacterial benefits and therefore used in acne treatment. This specific wavelength stimulates the production of oxygen radicals that kill P. Acnes bacteria (the acne-causing bacteria), without damaging the skin.

AMBER Light Therapy: (Wavelength of between 590nm to 620nm) Used to flush waste from the skin, boost lymphatic flow and increase cellular growth, aiding in cell-turnover, or production of new skin cells.
